<FIRSTNAME>,

We're looking for students who want to put their ideas into overdrive. Students who are excited, innovative and maybe a bit nerdy. If that sounds like you, we want you to apply to Kettering University!

No one does hands-on STEM and business education like Kettering. We recognize that there is as much to learn in a workplace as in a classroom. As early as your freshman year, you can alternate between on-campus study terms and full-time, paid work terms with employer partners in your field.

That means you'll get hands-on, real-work training before you graduate – and a regular paycheck during your work terms.

THAT'S JUST ONE BENEFIT WAITING FOR YOU AT KETTERING UNIVERSITY. KEEP READING TO EXPLORE MORE OPPORTUNITIES AND FIND OUT WHY YOU SHOULD SUBMIT YOUR APPLICATION!

2.5 Years of professional experience

More than **500** employer partners

14:1 Student to faculty ratio

State-of-the-art **LAB** facilities

5 REASONS TO APPLY

1. PAID, HANDS-ON WORK

How would you like to earn between \$10,000 and \$15,000 per year in your desired career field? That's what you can earn during your work terms with employers like GM, A

2. ACADEMICS WITH GREAT RESULTS

Kettering ranks among the top five in the nation for value of education. We've also been recognized for our 20-year ROI of \$743,000, according to

3. FIXED-RATE TUITION

You'll pay the same for your last semester as you did for your first. The promise of Kettering's fixed-rate tuition is a great benefit. Combined with the return-on-investment listed above, Kettering is a great investment.

4. UNIQUE FACILITIES

The Crash Safety Center at Kettering University is the only place in the nation where undergraduate students can test vehicle protection systems like air bags and child seats. Interested in robotics? You can prepare for competitions with guidance from mentors, unprecedented access to labs, machine tools, software and the only regulation-size year-round practice field.

5. WE LOVE TO GET NERDY

Are you geeky? A nerd? Innovative? If you identify with those traits, you're going to fit right in on campus. Our small, friendly classes are perfect for students who want to perform amazing research and make meaningful innovations, like 3D printed water filter adapters.
